Foundations of Gifted Education 6 hr. GT Update (online) Fall 2009

In this e-course, participants will learn how we defined giftedness and served gifted students in the past, and how that past has shaped our present legal and conceptual understandings of giftedness. Participants will contribute ideas to the discussion board, share their own experiences, and research related information. The objectives will be met through Internet investigations, investigation of district information and practices, and threaded discussions. A 10-question end-of-course knowledge test is also included.

Summer online modules will be available for registration April 30th.
