Gifted Education Training for Counselors

State law mandates all counselors working with the gifted program attend a basic six hour training. This training includes: nature and needs of the gifted learner and program options.

These workshops examine current state laws plus issues and trends in the field of gifted education.

Participants are requested to bring the latest copy of the district Gifted Education Guidelines and a copy of the campus plan which integrates training for teachers of the gifted learner.

Time is available for sharing best practices and clarification questions and answers.

These sessions do not qualify for update certification and are not designed for teachers. The sessions are for counselors only.
