## CSCOPE AT A GLANCE

CSCOPE is a comprehensive, flexible, user-friendly curriculum management system built on the most current research-based practices in the field. Its primary focus is to impact instructional practices in the classroom to improve student performance. This multi-faceted system includes three key components that operate seamlessly:

- Professional Development
- Curriculum & Assessment
- Innovative Technology

## PROFESSIONAL DEVELOPMENT

Administrators and teachers are supported with sustained, intensive staff development to ensure systemic change district wide. CSCOPE provides timely and pertinent training including:

- Leadership professional development
- Onsite modeling of instructional delivery
- Videoconferencing & Web-casting
- Modeling of research-based, best practice lessons, and instructional strategies
- Technical assistance
- Ongoing support by content area specialists in a variety of delivery modes

# CURRICULUM & ASSESSMENT

At the heart of the CSCOPE process is a guaranteed & viable curriculum. Content area experts ensure quality through a process of continual review. The key components of the CSCOPE curriculum are:

- A K-12 systemic model in the four core content areas
- Common language, structure, and process for curriculum delivery
- Clarified and specified TEKS/STAAR expectations assembled in a vertical alignment format
- Lessons in English and Spanish (K-5)
- Unit assessments aligned to TEKS and Instructional Focus Documents

CSCOPE Curriculum is a flexible resource to address the specific needs of educators. The systemic curriculum model components include:

- Vertical Alignment Documents
- Instructional Focus Documents
- Research-based instructional plans aligned with TEKS which include instructional strategies and questioning techniques
- Aligned continuum of performance indicators and assessments with analytic and holistic scoring guides/rubrics
- Year-at-a-Glance planning tool to ensure comprehensive learning coverage
