

## **Library Services Professional Development**

### **Campus/District Offerings Serving Region 10 Library Services Cooperative Members 2010 - 2011**

All titles are available on-site and by request as of 07/01/10  
to members of the Region 10 Library Services Cooperative

#### **Cooking with Instructional Recipes and State-Funded Databases**

Librarians will explore the TEKS-correlated lesson plans that are based on the state-funded K-12 databases. The wealth of free training materials and promotional materials available to all Texas school libraries will be examined.

#### **ELAR TEKS for Librarians (K-12)**

Librarians will examine the new English Language Arts/Reading TEKS and will discuss the implications of these new state standards for school libraries in the area of library programming and collection development.

#### **Kapow! Using Graphic Novels in the Library (3-8) *NEW***

The working definition of "21st Century Literacies" adopted by National Council of Teachers of English (NCTE) includes "analyzing and synthesizing multiple streams of simultaneous information." What can better accomplish this than graphic novels? In this workshop, librarians will explore a brief history of comics/graphic novels, become familiar with the components of graphic novels, review the benefits of using graphic novels with students of **all** reading levels, and review some of the most recently published graphic novels for tweens and teens. This session is designed for both the novice and the enthusiast of graphic novels.

#### **Pump Up the Genre: Collection Development for Elementary Librarians (K-6) *NEW***

Librarians will explore collection development aligned to the new ELAR TEKS genres. Participants will discuss new reviewed titles and awards lists in various genres that are appropriate for "pumping up" an elementary library collection. Strategies and ideas to incorporate genres into library programming will be shared.

#### **Putting the Search Back in Research: Tips for Secondary Teachers and Librarians (6-12) *NEW***

Participants will explore research as an information problem-solving process and ways the library can support the new ELAR TEKS research strand. Both librarians and teachers will examine research-related materials and strategies to be used in the library and/or classroom.

#### **Research Rocks: Reaping the Benefits of Classroom and Library Collaboration (K-6) *NEW***

Participants will explore research as an information problem-solving process and ways the library can support the new ELAR TEKS research strand. Both librarians and teachers will examine research-related materials and strategies to be used in the library and/or classroom.

#### **Genre GPS: Find Your Way to a Better Secondary Collection *NEW***

Librarians will explore collection development aligned to the new ELAR TEKS genres. Participants will discuss new reviewed titles and awards lists in various genres that are appropriate for a secondary library collection. Strategies and ideas to incorporate genres into library programming will be shared.
