

Addendum #3
**RFP #2009-03 TxVSN Professional Development for Inexperienced or
Experienced Online Instructors**

The purpose of this addendum is to answer a vendor question.

Question:

Are applicants expected to document where each indicator of a standard is located in a course or can we simply indicate where the standard is met within the course? Much of this information is already contained in the body of our response to RFQ #2009-03 per the directions.

Answer:

Attachment F is used by the applicant to document how the professional development activities, syllabus, pre-requisites, strategies, assignments, and/or assessments address each iNACOL standard and indicator. The reviewers use Attachment F to verify that all the standards and indicators are covered by the professional development. As a result, it is recommended that regardless of how/where the standard is addressed in other parts of a response, it should be included in Attachment F as well.

If there are any additional questions, please feel free to contact Region 10 at 972-348-1112 or 972-348-1110.
