Professional Development Opportunities
Serving Region 10 Schools**

All titles are available via the internet, by request to members of the
Region 10 Safe and Drug-free Schools and Communities
(Title IV) Cooperative

Safe School Survey 

Participating districts may use this online service to survey their students, staff and parents on issues related to the promotion and maintenance of a safe school environment. Topics in the survey include student reports of violence, illegal use of alcohol and drugs, theft and their feelings about the relative safety of their school. In addition to the basic question series districts may also customize some questions based on their specific needs. Unlike years past the survey may be opened for lengthy periods of time to accommodate scheduling and computer access. District and campus reports are made available to school districts at an administrative meeting with the Safe School Survey monitor at Region 10 following completion of the instrument.

Drug and Violence Education: DAVE Training 

Drug and Violence Education is a tool for promoting health and safety among young people. It infuses research-based prevention education into the core and supplemental curricula to provide students with consistent, firm, no-drug-use, and no-violence messages in all areas of their education. Participants discover the interdisciplinary aspects of the free DAVE on-line curriculum as well as a wealth of Internet resources with additional lesson plans.
