Graduate degree: Major _____

University _____

I recommend this individual for participation in the PrEP Program and confirm that this applicant has passed a check of criminal record completed by the district. Signing this form in no way obligates the district to provide this applicant with a job. If an appropriate position becomes available, the applicant must complete the standard job interview process. If selected, I understand this individual will be employed as a school counselor with probationary certification during the period of time that he/she is completing the requirements of this field-based program. If this applicant were offered a job as a school counselor or allowed to complete intern requirements while working in another position, we will select a certified school counselor mentor to work with the counselor intern, district personnel and Region 10 to determine the level and type of support and/or training that is needed. This mentor will be allotted adequate time to provide technical assistance, modeling, review and observations. The counseling mentor must be someone who will provide encouragement and support while at the same time facilitating professional independence.
