

*15<sup>th</sup> Anniversary*  
Annual Technology Olympics – April 16, 2010  
Directions for Completion of Student and Volunteer Registrations

*Teachers, please be sure to indicate your email address for confirmation of registration and additional information.*

Place a check mark  beside the events the student wishes to enter. Those events with different levels listed to the right **must have a level circled as well**. Check the prerequisite skills sheets on the website to help determine the most appropriate level for the student. The Notetaker category may include any electronic notetaking device including, but not limited to, Braille Lite, BrailleNote, PacMate, and Neo. In completing the Computer Access event, the student's access mode must be checked.

On the second page, please indicate a font size and indicate if Braille should be **uncontracted**. Special accommodations also need to be addressed and T-shirt size indicated.

Finally, on the third page, parental permission **IS REQUIRED** for the student to participate in the event, and permission to allow media exposure for guests, teachers, and for the student. Your help in getting these forms completed entirely is appreciated.

\*\*\*Volunteers\*\*\*

Any VI teacher or O&M specialist who will not be responsible for a student is encouraged to volunteer to help with at least one of the jobs listed on the Volunteer Registration Form. Room Judges and Room monitors will not be asked to perform any additional tasks, unless they can be available from 8 a.m. - 9 a.m. Please note that Visual Aid Volunteers in the Judges Room will score all tests with the exception of Abacus 1 Beginner and BrailleWriting - Level 1. Please indicate your T-shirt size and your email address so that the job you will be assigned can be confirmed with you prior to the event.

Thank you for your help in making this event successful. If you have any questions, please call Laura Lemaster at 972-348-1606 or Tana Daniels at 972-348-1676.
