

Ready or not for Kindergarten

Ensure Success with the Pre-K Outcomes Framework!

THE **PRE-K OUTCOMES FRAMEWORK** is designed to support early childhood educators in their effort to provide high-quality instruction and learning for their young students. Utilizing the Texas Prekindergarten Guidelines as a foundation, this framework is aligned with the Kindergarten Texas Essential Knowledge and Skills (TEKS). This online platform was intentionally devised to help teachers and administrators create planned, purposeful and playful learning experiences and assessments.

The Pre-K Outcomes Framework facilitates developmentally appropriate planning and high-quality instruction to provide a solid prekindergarten program which will prepare all children for success in kindergarten and beyond.
