

Response to Intervention

Provide real time progress monitoring of students undergoing intervention. Ability to apply intervention strategies across different tiers, evaluate their quality and outcomes.

The screenshots illustrate the following features of the Edugence RTI system:

- RTI Dashboard:** A top-level view showing 770 students, search filters for campus (ALL - District) and grade, and checkboxes for various student categories like SpEd, GT, DYS, LEP, ESL, BIL, DEN, M1, M2, and Tier-1.
- Student Profiles:** Individual views for students like Abajo, Faith (80779), Abril, Pedro (81807), and Adams, Chloe (92470), showing their current tier (e.g., Tier III) and progress in Reading, Mathematics, and Science.
- RTI Referral Report:** A detailed report for a student, including campus, year (2018), reason for referral (e.g., Refer to Sp Ed), and a table of interventions with columns for Date, Tier, Strategies, Accommodations/Strategies, Additional Comments, Frequency, Duration, Grouping, Monitoring Tools, Outcomes/Results, and Updated By.
- Parent Log:** A table tracking parent contact, including Date, Method of Contact, Guardian, Concerns Discussed, and Outcomes.
- Progress Monitoring Charts:** Line graphs showing student performance over time for subjects like Reading, Mathematics, and Science, with data points and trend lines.
- Behavior and Literacy Charts:** Bar charts showing behavioral incidents and literacy scores across different subjects and time periods.
- Student History Table:** A table showing a student's history of interventions, including Year, Grade, Composite Score, Letter, Book, and Risk Level.

Web Based	Works on any browser and with iPad, iPhone and Android devices.
Dashboards	Dashboards to monitor progress and provide important information in an easy to understand visual format.
Real Time Progress Monitoring	Enables real time progress monitoring and tracking of students in a streamlined formless system. Set goals, time lines, intervention strategies, frequency and group size.
Auto flag students for intervention	Enables automatic flagging of students for intervention based on specific criteria.
Full Support for Tier I, II and III interventions	Manage all tiers of interventions, each having its own intervention strategies. Track historical progress across the different tiers when student transition to a different tier.
Assessment Integration	One place to view and analyze all assessment data.
Student RtI Profile	Access complete intervention profile of students from the time they first came to the district.
Parent Communication	Document all parent contact and utilize reporting feature of parent contact logs by campus, grade, teacher and date range.
Reporting	Range of reports to monitor the RTI process, evaluate student progress, quality of strategies used and outcomes.
Referrals	Integrated referral documentation for Special Ed, 504 or Dyslexia.
Training and Support	Purchased through Region 10 with training and support provided by Region 10 staff!

With a great RtI program, you're able to actively monitor the students and the effectiveness of the supports provided. We love our partnership with Edugence with this because it does precisely that! It's what helps effective data-based decision making and so much more--and what our districts love about it as well!
