Part I Early Words

A. First Signs of Understanding		
Before children begin to speak, they show signs of understanding language by responding to familiar words and phrases. Below are some common examples. Does your child do any of these?		
	Yes	No
1. Respond when name is called. (e.g. by turning and looking at source)	<input type="radio"/>	<input type="radio"/>
2. Respond to "no no" (by stopping what he/she is doing, at least for a moment).	<input type="radio"/>	<input type="radio"/>
3. React to "there's mommy/daddy" by looking around for them.	<input type="radio"/>	<input type="radio"/>

B. Phrases (28)		
In the list below, please mark the phrases that your child seems to understand.

C. Starting to Talk			
	Never	Sometimes	Often
1. Some children like to “parrot” or imitate things that they’ve just heard (including new words that they are just learning, and/or parts of sentences, for example, repeating “work now” after mother says “Mommy’s going to work now.”) How often does your child imitate words?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2. Some children like to go around naming or labeling things as though proud of knowing the names and wanting to show this. How often does your child do this?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

D. Vocabulary Checklist

The following is a list of typical words in young children’s vocabularies. For words your child understands but does not yet say, place a mark in the first column (understands). For words that your child not only understands but also says, place a mark in the second column (says). If your child uses a different pronunciation of a word (for example, “raffe” for “giraffe” or “sketti” for “spaghetti”) mark the word anyway. For words that your child not only understands but also signs, place a mark in the third column (signs). Remember, this is a “catalogue” of words that are used by many different children. Don’t worry if your child knows only a few right now.
