Project Based Learning

Region 10 ESC, in collaboration with the Buck Institute of Education (BIE), is offering a three-day professional development workshop series.

PBLTexas

REGION 10 ESC, in collaboration with the Buck Institute for Education (BIE), is proud to introduce and host, not one, but three **Project Based Learning** workshops for teachers, instructional coaches and school leaders. BIE's expert National Faculty and staff will lead sessions on ways to design, assess, and manage projects that engage and motivate students. School leaders will learn ways to bring coherence to PBL practices across grade levels and across subject areas. These three workshops offer the perfect opportunities for educators and administrators to learn creative and innovative methods that can foster deeper student learning. Which one will you choose?

Choose to attend one of the following three PBLTexas workshop opportunities.

► **PBLTexas 101 for Teachers***

Based on BIE's PBL 101 Gold Standard Workshop for Teachers, educators will spend three days learning new skills on how to build and manage standards-based projects that can foster increased student engagement in the classroom.

► **PBLTexas 201 for Teachers*** [Pre-Requisite / PBL 101]

Based on BIE's PBL 101 Gold Standard Project Based Teaching Practices, educators will spend three days learning about project development via direct instruction, video analysis, hands-on work, peer collaboration and feedback.

► **PBLTexas Leadership Academy for Administrators***

Based on BIE's PBL Leadership Academy, administrators can expect to spend three consecutive days exploring best practices in leading the way towards building an effective, successful implementation of project based learning in their district or campus.
